

FLEXTILE / FOLDABLE FRAME

voigt™

## FLEXTILE / FOLDABLE FRAME

### A revolutionary portable modular system!

The Flextile frames can be folded and unfolded with the printed fabric mounted on the frame. Once the graphic is installed you never have to remove it or reinstall it again!

Stack vertically and connect horizontally, simple and intuitive but very capable. Build everything from a simple tabletop, to a larger backwall, to towers, to counters, to larger spaces.

Each carry bag can hold up to 4 frames, 4 connector rods, 4 foot rods, and 1 top connector. For additional information please contact with our customer service.

## FLEXIBLE / FOLDABLE FRAME

### Multiple options!

Using the same amount of frames you can alter your Flextile in the best way suitable for a specific event and provided space. Create different configurations and combinations, a straight back wall can also convert to multiple tabletops, or separate displays and a tower.

# Flextile is the ultimate solution for messaging flexibility.

## Double sided pillow case

The pillow case graphic pulls over the Flextile display using a stretch fabric. No more rounded corners, no more pile of aluminum pipes. A pillow case display made simpler and better.

## One graphic per frame

The easiest set up. The graphics are already installed in the frames. Assemble a small display in just a few minutes.

## One graphic over four frames

A larger graphic that spans across multiple frames, front only or double sided. The SEG graphic inserts easily into the grooves of the frames.
