

Outdoor Flags | SUPREME LUX 160

Company and Advertising Flags

Not just a material - it's a revolution.

Our revolutionary material Supreme Lux 160 enables printing up to 1.95 meters wide and 10 meters long, opening new dimensions for your creative expression. Explore the features that make it the ultimate choice for your brand.

Advertising flags are simple and effective for enhancing your company's image. Proper exposure and preparation capture attention. For flags, we recommend Supreme Lux 160, the strongest 100% spun polyester material for longer life on flagpoles. We also offer the economical yet durable Ecotex 110.

Flags can be printed using screen printing for pure colors or digital dye sublimation for strong, deep colors. Digital printing allows cost-effective production of even a single piece, with no impact on price.
